

# A Community Investment in Our Kids

Saint Paul residents are being asked to consider a school funding increase for our 37,000 students.

## Asking voters to increase school funding would help:

- Invest more in schools and student needs at all grade levels
- Implement the district's Strategic Plan to increase achievement for all students

## Why Now?

- Saint Paul is the second largest school district in the state, but has one of the lowest voter-approved operating levies in the area
- Federal, state and local funding are not keeping pace with the educational needs of our students
