

# Building Construction Project

Highland Park Elementary's school building is being remodeled!

## What changes will the school have?

- New gym and cafeteria
- Two-story addition for more learning and student support spaces; new stair tower and elevator to second floor
- Additional parking on east side of building
- Separating the bus and parent pick up/drop off locations to ease traffic
- New playground and upgraded play field
- Paving and completing the neighborhood walkway on east side of the building

## Will students still be able to attend the school during construction?

**Yes!** School will be conducted as usual during construction.
