# student life

"My four years at Humboldt have been nothing short of memorable. Even though my senior year is great, freshman year will remain the most unforgettable. Ninth grade was when I met a lot of the people who are close friends of mine today. Ninth grade was the beginning of a new experience.

Spending time after school for activities with Asian club, French club, and more memories I will always cherish. Everyday made me smile... Being with friends, giving teachers a hard time, and the small things made each day worth while."

Natalie Hamilton

"The students at Humboldt are very supportive of each other and strive for excellance in thier studies, athletics, and the improvement of their quality of life here at Humboldt along with others outside of school.

I'm impressed with the way they get involved with the different activites at Humboldt, like the friendship club with Mr. Ales, the Asian club, junior and senior council, fundraising, plays, band, and art, etc.

They are very respectful and will go out of their way to help you around the school and office when you need something. They are easy to talk to. I have had the pleasure to be able to help a lot of students with homework problems if need be and partake in some of the assignments in the class room when asked to describe my work at Humboldt.

Humboldt students are very diverse which makes Humboldt a great place to meet different students from Asia, Africa, Europe, and South America. They bring with them all sorts of talents, languages, and food. It's nice to hear all of the students speak the languages and to try my best to learn and speak it myself. I would never want to work at another school than Humboldt. I love all the students and I hope that they continue to strive for thier goals in life and remember all the peole that helped them along the way."
