

Before and After

To play “Before and After”, students will need:

- Everyday Math card deck with cards 0-22 only (**or a regular deck of cards - 1-10 only**).

Directions:

1. Shuffle the cards.
2. Deal 6 cards to each player.
3. Put 2 cards number-side up side-by-side on the table.
4. Put the rest of the cards number-side down in a pile.
5. Take turns. When it is your turn:

- Look for any number in your hand that comes just *before* or just *after* one of the face-up numbers. Put your card on top of the number. Play as many cards as you can.
- Take as many cards as you need from the deck so that you have 6 cards again.
- If you can't play any cards when it is your turn, take 2 cards from the deck. Place them number-side up on the 2 cards on the table. Try to play cards from your hand again. If you still can't play, your turn is over.

6. The game is over when:

- All cards have been taken from the deck.
- No one can play any more cards.

7. The player holding fewer cards in their hand wins.
