## GREAT THINGS HAPPENING AT COMO

CONGRATULATIONS to the other JROTCs winning the Lincoln High School MCJROTC Drill Competition this weekend. The Como Park MCJROTC Cougars may have ended their final drill competition of this school year without an overall win, but it has taught all of us humility and strengthened the pack to handle the next adversity we face. It was still a memorable adventure for all cadets pictured. Learning how to properly deal with a loss is a good thing. As their Marine Instructor, it's important to teach the cadets that there are many positive things that come from losing. "There's more to learn in losing than there is in winning," says SgtMaj Kirkland.

## STAFF SPOTLIGHT

Please welcome our new Teaching Assistant, Matthew Mandel

I graduated from St. Cloud State University in 2012 with a Chemistry B.S. and landed a job at PRACS Institute ( a company that tests new and developing types of medicine) in Fargo, North Dakota for about three months. PRACS had a layoff because they could not find financing for their drug extraction laboratory. After this, I wanted to live closer to family but could not find a job in chemistry close by where I live.

I'm in the position at Como Park Sr. HS as a TA2 or Paraprofessional in mostly English and ELL classes. Since I've been at Como, I've enjoyed the challenge of helping teachers with struggling students; every student could probably ask for my help and I could help.

I also was a Teaching Assistant at Harding Sr. H.S. In the 2004/05 school year, so I knew I liked this job. I enjoy science and math and in my free time endeavor to record my dreams. I can use dreams to access my subconscious. Recently I've been interested in Egyptian hieroglyphics because hieroglyphics have multi-component meanings, as in sounds, ideograms, and other meanings.

When I hear loud and distracted Como students, I think and sometimes say, "Love and Gratitude." Sometimes love is lost, and you need gratitude to navigate back. I explain to them that you don't need to distract from someone's education and put yourself in a bad light, when in fact they are the ones that can help them at school to learn. Students may lose sight of this.
