

**SAINT PAUL PUBLIC SCHOOLS
PROPOSAL #1
September 21, 2023**

E-Learning

The District proposes to convene a small working group to construct a plan for e-learning days. With the potential for weather events arriving in the near future, having this plan completed in a timely manner is a positive for parents, students, employees and administration.

The District proposes a working group comprised of four (4) individuals each from SPFE and the District to work on this and, when complete, jointly present to the larger group.
